Message from the Chief Executive Officer

D'Veal Family and Youth Services is committed to transforming the lives of families and individuals experiencing behavioral and emotional challenges. As a community-based mental health organization for the past 30 years, D'Veal has continued to grow and provide a vast array of culturally and linguistically competent mental health services designed to address the unique needs of the communities we serve.

The dedicated and highly trained staff of D'Veal is sensitive to the stigma associated with receiving mental health services and committed to eliminating the barriers to access to care. Each day, our teams work to strengthen families through innovative groups, parent programs, and a flexible work schedule to accommodate services. Our staff value the important work of community mental health and provide a variety of evidenced-based practices, prevention and early intervention, and individualized treatment services that are strength-based and address the unique experiences of the families and individuals served.

At D'Veal, we focus on continuous program improvements and being a recognized leader in behavioral healthcare services and family wellness. We are proud to have received, for the third time, The Joint Commission Gold Seal of Approval for Behavioral Health Care and Human Services Standards. D'Veal's fiscal year 2023-24 Strategic Plan outlines goals for continued success of the organization.

On behalf of the D'Veal Board of Directors and the Administrative Leadership Team, we want to thank our community partners, funders, and elected officials for supporting our work to improve the lives of individuals with mental illness.

Sincerely,

John McCall, LCSW
